

Family update #217

October 16, 2023

Dear family and friends,

Outbreak Update

Currently the following units are on outbreak:

Location	Type of Outbreak	No. of residents affected	Tentative Lift Date
WK Crescent Heights 2F	COVID	3	Oct 31
	Influenza A	2	Oct 31
WK Crescent Heights 4F	COVID	2	Oct 22
Greenview- SL 3F	COVID	3	

We are grateful that the symptoms of the affected residents are minor and they are recovering well. As of today, all eligible residents of the three Wing Kei sites have received the COVID and Influenza immunizations which will provide protection from the viruses. Our teams will continue to monitor the condition closely.

At this time we request that **only essential visitors come to the outbreak units**, including meal time assistants who provide feeding support during meals and emotional support for the residents. Other visitors to the affected units are encouraged to communicate with the unit nurse first prior to visitation.

It is that time of year when we begin to see and experience infections in the community. We strongly encourage families and visitors to receive the flu vaccine and the new COVID vaccine to minimize the risk of infection. If you experience any symptoms, even very mild, please delay your visit. Thank you for your continued diligence in keeping yourselves, your families, and the Wing Kei community safe.
